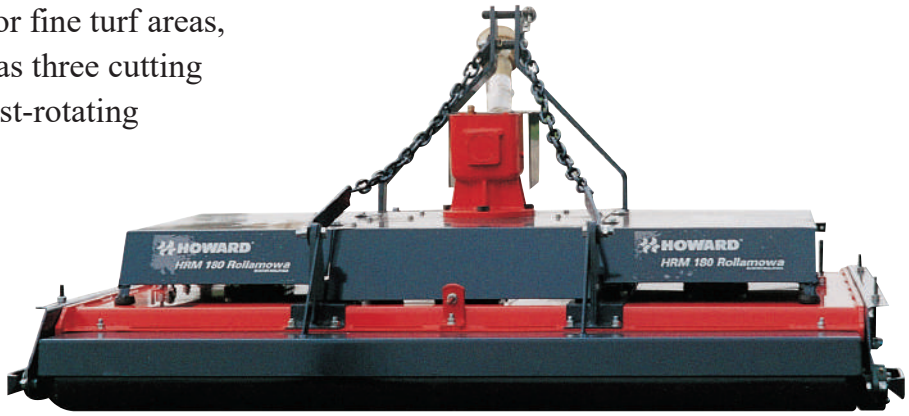
A fast and efficient mower for fine turf areas, HOWARD's Rollermower has three cutting heads and six overlapping fast-rotating swing-back blades.
The fine clippings are evenly scattered, leaving a smooth, clean finish.



Excellent for fairways, parks and sports arenas and equally comfortable on fine turf and in rough grass. Front and rear rollers with side skids ensure an enclosed cutting chamber, prevent scalping and allow cutting over kerbs and edges.

B section V belt - driven from A4 driveshaft through gearbox and spindle pulleys.
Robust simple design for easy service and maintenance.

Specification	Rollermower HRM
Working width, cm	180
Cutting height, cm	1-9
